

Glass Garden Fiberglass Planters

Construction

- **Fiberglass:** When combined with resin, the resulting laminates achieve high durability, strength, and corrosion resistance.
- **Resin:** High resistance to extreme temperatures, tension, compression and impact.
- **Paint:** Polyurethane paint is resistant to UV rays, ensuring long term color stability inside or out.

Features

- Lightweight, durable fiberglass/resin construction.
- All season indoor or outdoor use.
- Withstands extreme hot or cold temperatures.
- UV protected, water resistant, non-combustible.
- Plant friendly: insulated from temperature extremes.
- Supports direct or indirect planting.
- Minimal care and maintenance required.
- Smooth surface planters can be cleaned and polished with a spray car wax to enhance UV protection.
- Ideal for commercial or residential use.
