

Stucco Column

Our new stucco column comes ready to install over your 4" x 4" wood post. It has a styrofoam core with a ready-to-paint stucco exterior. As an option, we offer three paint choices: Sandstone, Burnt Tuscan, or Slate Gray. See website for full installation instructions. Dimensions: 24" x 24" x 60" (18" x 18" center column).

Three different coating options are available:

Single Coat: This is the standard finish included in the base price. It can be painted with any exterior grade paint.

Double Coat: Also ready to paint, this finish is typically used if you will not be applying a final stucco finish coat. The second layer of cement is thicker and stronger than the standard single coat and is better suited for high-traffic locations where there is a greater chance of surface impacts.

Smooth Cement Coat: Typically used for exterior applications, the surface appears like unpainted cast concrete and it may be faux finished or painted.

Sandstone

Burnt Tuscan

Slate Gray

Shown with optional Manchester® mailbox and newspaper box.

Column is easy to install over your 4" x 4" wood post.

MAN-STUCOL

The Manchester®

This decorative cast aluminum mailbox can be easily inset into a column, pilaster or wall. It features a tough powder coat finish in three different colors. Includes masonry box made of corrosion free composite material. Match the Manchester® with an optional newspaper box or address plaque. See website for additional options.
